BED AUSTIN, KING

Transitional by nature and earthy in elements, the Austin Bed is a work of art. With a perfect brass tone that covers its well-proportioned metal frame, the woven vegetable tanned leather finished in a rich dark chocolate tone, this canopy bed speaks for itself and will need no further description for those who understand quality and elegance.

PRODUCT DESCRIPTION

Available in all 3 sizes.
Handcrafted in Peru.
Customization available.

Unlike the soft leather you are used to seeing on luxury leather goods such as high-end purses, vegetable tanned leathers are rustic, thick and very durable. For instance, consider this leather to be the type you would find in equestrian saddles and antique leather goods. Unlike chrome tanned leatherswhich have toxic properties, vegetable tanned products have less of an impact on our environment, eliminating much of the pollution caused by modern tanning methods. Every vegetable tanned leather produced is unique in its own way.
