CHAISE SIGMUND

This Shrink style bench with metal legs features pillows and seat in foam and Dacron and a buttery soft faux leather that is 100% cleanable and 100% polyurethane.

An iconic style with functionality and elegance. Our Sigmund daybed-bench is a masterpiece of carefully combined clean lines, sturdy and stable construction and the highest quality available in the market.

With a steel reinforced frame suspended on V legs and hand finished in aged bronze, the upholstered top is covered in a high-end leatherette in a calm and pastel light blue tone.

The soft tufting created in stitched squares makes this a dream piece to lounge for hours in your sunroom or receive guests into your home office.

Designed for daydreaming, this daybed is truly lounge-worthy. Clean lines and elegant tailoring distinguish its appearance and are enhanced by a semi-aniline cover tufted in a modern grid pattern. A plush pillow highlights each end of this brilliant piece and can be secured or removed with ease. Metal V-shaped legs finished in Whisper of Gold elevate this daybed while lending an airy openness to its overall appearance. Designed to flatter every space, this special piece delivers a look you'll love for years to come.
