

## DINING CHAIR NANTES, RUN AROUND THUNDER

Delicate, feminine and yet sturdy and of a very solid construction not common in these chairs, the Nantes dining chair is a great example of French classic design. Appointed with an exposed hard wood back and seat base detailed in hand carved designs, is finished in a wire brushed texture to add dram and authenticity to this fine reproduction of French heritage. Hand applied nail heads frame the elegant back around a high-end striped textile.
